Caveats: FOUO

Thanks for the info. Our project financial documents still show March 31, 2016 as the expiration date and I will try to get that corrected. Is there also a WAF expiration date as well as an IA expiration date?

I will update the information in our future progress reports.

Paul

I just want to point out some things I should have earlier. The cover letter for your reports has the IAG expiration date as March 31, 2016. The Work Authorization for San Jacinto was issued under a multi-site IA (FYI-we no longer refer to an Interagency Agreement as an IAG). The multi-site IA has an expiration date of January 30, 2021. The site specific Scope of Work for San Jacinto contains due dates for site project milestones but the overarching expiration date of the IA should be referenced in your cover letter. Thank you.
